Company Profile

BRITOP Compact Equipment is a business division of Qingdao Britop International Trading Co., Ltd., an export trading company based in Qingdao, China. We supply three equipment lines to dealers, rental fleets, municipal contractors and farming customers worldwide: snow removal machines, remote-controlled lawn mowers and diesel generator sets.

What we supply

- **Snow removal equipment** - brush sweepers, throwers, plows and auger blowers from 7.5HP to 15HP for driveways, parking lots, plazas and municipal roads.
- **Remote-controlled lawn mowers** - flail, flat-blade and wheeled mowers from 550mm to 1200mm cutting width for slopes, orchards, riverbanks and PV stations.
- **Diesel generator sets** - open, silent, trailer and container units from 5kW to 1200kW, with in-house engines and Weichai, Cummins, Yuchai, Shangchai and Changchai engine options.

Why work with us

- OEM / ODM support with custom colors, decals, branding and packaging.
- Factory-direct supply chain; authorized dealer for Sichuan Yachen generator engines.
- Spec customization: voltage, frequency, ATS, remote monitoring, mobile trailers and special-environment options.
- Spare parts kits, technical documentation and after-sales support for every model.
- Fast loading from Qingdao Port, with worldwide export experience.

Send us your requirement list with target quantity and destination port. Our team replies with pricing, technical datasheets and lead time within 24 hours.

Snow Sweepers

BP-2398 · SNOW SWEEPERS

BRTCE-SW1100 Fully Geared Snow Sweeper

The BRTCE-SW1100 is a heavy-duty fully geared snow sweeper with a 1.1m working width. The brush head of nylon and steel wire (50cm diameter) tilts 15 degrees left/right. Powered by a 15HP gasoline or 9HP diesel engine with full gear transmission and automotive dry clutch, it offers 3 forward and 3 reverse gears, 500-10 tires and a working

Product Name	Fully Geared Snow Sweeper
Model	BRTCE-SW1100
Product Type	Self-propelled fully geared snow sweeper
Working Width	110 cm (1.1m brush head)
Engine	Gasoline 15HP / Diesel 9HP, electric & manual start
Transmission	Full gear transmission, automotive dry clutch
Gears	3 forward, 3 reverse
Tires	500-10
Weight	200/240 kg
Throwing Distance	N/A (thrower head replaceable)
Cleaning Efficiency	4200 m2/h
Application Fields	Airports, stations, roads, residential communities, schools, parking lots, plazas

BP-2399 · SNOW SWEEPERS

BRTCE-SW1500 Fully Geared Snow Sweeper

The BRTCE-SW1500 is a heavy-duty fully geared snow sweeper equipped with a wider 1.5m brush head for larger-area snow removal. It shares the same powerful chassis: 15HP gasoline or 9HP diesel engine, full gear transmission with automotive dry clutch, 3 forward and 3 reverse gears, 500-10 tires, and a working efficiency up to 4200 m2/h. Id

Product Name	Fully Geared Snow Sweeper
Model	BRTCE-SW1500
Product Type	Self-propelled fully geared snow sweeper
Working Width	150 cm (1.5m brush head)
Engine	Gasoline 15HP / Diesel 9HP, electric & manual start
Transmission	Full gear transmission, automotive dry clutch
Gears	3 forward, 3 reverse
Tires	500-10
Weight	200/240 kg
Throwing Distance	N/A (thrower head replaceable)
Cleaning Efficiency	4200 m2/h
Application Fields	Airports, stations, roads, residential communities, schools, parking lots, plazas

BP-2395 · SNOW SWEEPERS

BRTCE-SW800 80 Snow Sweeper

The BRTCE-SW800 is a self-propelled 80cm brush snow sweeper powered by a 7.5HP four-stroke engine. Its brush head is made of nylon and steel wire (26 pieces, 34.5cm diameter) and can tilt 15 degrees left/right. Equipped with 5 forward and 2 reverse gears via friction disc transmission and 13x4.1-6 snow tires, it delivers a working efficie

Product Name	80 Snow Sweeper
Model	BRTCE-SW800
Product Type	Self-propelled brush snow sweeper
Working Width	80 cm
Engine	Chongqing Kusino 196CC, single-cylinder, four-stroke, 7.5HP
Transmission	Friction disc
Gears	5 forward, 2 reverse
Tires	13x4.1-6 snow tires
Weight	85/100 kg (manual), 87/102 kg (electric)
Throwing Distance	N/A (thrower head replaceable)
Cleaning Efficiency	2500 m2/h
Application Fields	Airports, stations, scenic areas, streets, residential communities, parking lots

Snow Throwers

BP-2400 · SNOW THROWERS

BRTCE-TH1100 Full-gear Snow Thrower

The BRTCE-TH1100 is a full-gear walk-behind snow thrower with a 110cm working width. It throws snow up to 15 meters with a 190-degree rotating snow outlet and 6 steel auger blades. Powered by a 15HP gasoline or 9HP diesel engine with full gear transmission and automotive dry clutch, it provides stable power for heavy snow conditions. Bran

Product Name	Full-gear Snow Thrower
Model	BRTCE-TH1100
Product Type	Full-gear walk-behind snow thrower
Working Width	110 cm
Engine	Gasoline 15HP / Diesel 9HP, electric & manual start
Transmission	Full gear transmission, automotive dry clutch
Gears	3 forward, 3 reverse
Tires	500-10
Weight	195/235 kg
Throwing Distance	0-15 m
Cleaning Efficiency	4200 m2/h
Application Fields	Airports, stations, roads, residential communities, schools, parking lots, plazas

BP-2396 · SNOW THROWERS

BRTCE-TH620 Multi-functional Walk-behind Snow Thrower

The BRTCE-TH620 is a multi-functional walk-behind snow thrower with a 63cm working width and adjustable snow throwing angle. It throws snow up to 12 meters with a 190-degree rotating snow outlet. Powered by a 7.5HP four-stroke engine with combined manual and electric start, it features friction disc transmission, 5 forward and 2 reverse g

Product Name	Multi-functional Walk-behind Snow Thrower
Model	BRTCE-TH620
Product Type	Walk-behind snow thrower
Working Width	63 cm
Engine	Chongqing Kusino 196CC, single-cylinder, four-stroke, 7.5HP
Transmission	Friction disc
Gears	5 forward, 2 reverse
